

Learning events for your CPD October – March 2019

Friday 5 October 2018

Masterclass: Assessing and Treating Fatigue: Skills and Strategies for Occupational Therapy Practice

Royal College of Occupational Therapists HQ, London, SE1

Facilitated by Sue Pemberton, this Masterclass is aimed at occupational therapists from any clinical setting who find that fatigue is a significant problem for their clients and who want to increase their knowledge, enhance their skills and develop this area of practice. Delegates will learn fatigue management strategies and gain an increased understanding of fatigue and how to assess its impact upon daily life.

Visit: rcot.co.uk/fatigue **waiting list only**

Friday 12 October 2018

Masterclass: The Occupational Therapy-led Home-based Memory Rehabilitation Programme (HBMR)

Royal College of Occupational Therapists HQ, London, SE1

Facilitated by Mary McGrath, this Masterclass is aimed at Band 6 and above occupational therapists working in the area of dementia. This one day Masterclass will enable delegates to gain a working knowledge of the neuropsychology of normal memory and attention. Delegates will consolidate knowledge of the neuropathology of the common forms of dementia and will learn how to assess for insight.

Visit: rcot.co.uk/hbmr **waiting list only**

Tuesday 16 October 2018

Learning Together Seminar: Stepping into retirement

Royal College of Occupational Therapists HQ, London, SE1

Aimed at occupational therapy personnel who are planning to retire, those recently retired or who are retired and wish to think about their on-going lifelong learning. Delegates will explore the use of the Career Development Framework (RCOT 2017), share retirement experiences and participate in discussions to articulate lifelong learning opportunities

Visit: rcot.co.uk/its-retirement

Friday 2 November 2018

Masterclass: Occupational therapy for adult acquired apraxia

Royal College of Occupational Therapists HQ, London, SE1

Facilitated by Thérèse Lebedis (Jackson), this Masterclass will provide an evidence-based review of occupational therapy for the assessment and treatment of adults with apraxia following a stroke or a brain injury. It is designed to enable occupational therapists to enhance their skills and confidence in managing patients who present with apraxia in acute and community settings.

Visit: rcot.co.uk/apraxia

Monday 12 November 2018

Essential skills for practice: Keeping records

Royal College of Occupational Therapists HQ, London, SE1

Don't get caught out! Inadequate recording keeping is the most frequent reason that occupational therapists are reported to the HCPC. By attending this event facilitated by Henny Pearmain (author of Keeping Records RCOT's recently updated publication) you can make sure your record keeping skills – digital or paper- are fit for practice.

Visit: rcot.co.uk/recordkeeping

Wednesday 28 November 2018

Masterclass: Seating and Posture

Royal College of Occupational Therapists HQ, London, SE1

Facilitated by Fiona Collins, this Masterclass is aimed at occupational therapists who wish to develop their practice in the area of seating and posture. This masterclass will enable delegates to palpate key landmarks of the pelvis relevant to sitting position, identify abnormal sitting posture and make accurate judgements on the postural changes found.

Visit: rcot.co.uk/seating

Wednesday 23 January 2019

Essential skills for practice: Embracing risk

Royal College of Occupational Therapists HQ, London, SE1

Occupational therapists must embrace and engage with risk to help people reach their chosen goals. This study day facilitated by Henny Pearmain, will help you understand the underlying professional and legal requirements and how to implement this within the workplace. Attendance will help you to see how risk can be managed to enable people to overcome the barriers that prevent them from doing the activities that matter to them.

Visit: rcot.co.uk/risk

Friday 8 March 2019

Essential skills for practice: Supervision

Royal College of Occupational Therapists HQ, London, SE1

Facilitated by Henny Pearmain, this course will help you make the most of your supervision – whether supervisee or supervisor. HCPC's Standards of Proficiency (HCPC 2013) state that occupational therapists should 'be able to reflect on and review practice' and that they should recognise the value of supervision in achieving this. Attendance on this study day will help you to optimise your use of supervision, to everyone's benefit.

Visit: rcot.co.uk/supervision
